HARBORLIGHT CLINIC (fictional) -- EHR NOTE
Patient: Mara Ellison (fictional) MRN: XXXXXXXX
Visit: 10/02/2026 Author: Dr. Owen Pell (fictional)
Location: Harborlight Clinic (fictional)
SUBJECTIVE
Follow-up for glucose control. Denies hypoglycemia.
Mother had type 2 diabetes; sister has hypothyriodism.
She is not pregnant. No hx of pancreatitis.
OBJECTIVE
Meds reconciled this visit (see list). Feet intact.
ASSESSMENT
1. Type 2 diabetes mellitus, A1c still above goal.
2. Hypertension. 3. Hypothyroidism, stable.
PLAN
Continue metformin. Start semaglutide 0.5 mg subQ q7d
for type 2 diabetes. PA submitted today, 10/02/2026.
Nurse note: taught pen use; pt repeated the steps.
Addendum 10/02/2026 Dr. Owen Pell (fictional):
Goal discussed as A1c under 7%. She agrees.
