LETTER OF MEDICAL NECESSITY

Red Maple Endo (fictional)

Dr. Leah Soto (fictional)

Re: Ada Quill (fictional), Member ID XXXXXXXX

I request semaglutide 1 mg SQ weekly for Type 2 diabetes. She has taken metformin 1000 mg PO BID since 01/10/2025 without a stop.

A1c was 9.1% on 12/15/2024, before metformin.

On 06/18/2025 the lab read A1c 8.9%, corrected to 7.9%. That remains above our 7% goal.

Family history: father with type 2 diabetes.

Also followed for hypothyriodism and gout.

Per call with pt on 03/18/2026: no GI stop, she still swallows metformin twice a day.

Please approve the 1 mg weekly dose.

Signed Dr. Leah Soto (fictional) 03/20/2026
