LETTER OF MEDICAL NECESSITY

Loomis Derm (fictional)

Dr. Uma Shah (fictional)

Re: Teo Brant (fictional) Member ID XXXXXXXX

Request date: 02/11/2026

Please approve adalimumab 40 mg every other week
for moderate-to-severe plaque psoriasis.

The form cover shows a different request date.
I am not correcting either date in this letter.

Apremilast 30 mg PO BID was tried for acne only,
not as a psoriasis failure with measures.

Per call with pt: itching is worse at night.

Denies joint swelling. No hx of uveitis.

Family history: father with psoriasis.

Signed Dr. Uma Shah (fictional)
