Prescriber Signature: Dr. Patricia Neal, MD (fictional) 05/14/2026

PREMIER CARDIOLOGY GROUP (fictional) | ENCOUNTER NOTE & PRIOR DENIAL
Patient: Gordie Benning (fictional) | MRN: XXXXXXXX | Date: 04/20/2026
Attending: Dr. Patricia Neal, MD (fictional)

HISTORY & ASSESSMENT:
Patient presents for routine lipid evaluation. Denies chest pain. Currently taking atorvastatin 20 mg daily. High-intensity statin (40-80 mg) not prescribed due to patient concern regarding myalgias. Lab review from today shows LDL-C is 62 mg/dL.
PLAN:
Request Repatha for additional LDL lowering. Maintain atorvastatin 20 mg.

EXCERPT OF PRIOR PAYER DETERMINATION (Dated 01/18/2026):
"Denial Notice: Prior authorization for Praluent 75 mg was denied due to lack of trial of high-intensity statin therapy (atorvastatin 40-80 mg or rosuvastatin 20-40 mg daily)."
